The Breeding Program at Matatoki Hereford

We established the stud in Matatoki at the gateway to the Coromandel Peninsula in 2006 with a small amount of females purchased from dispersals and other opportunities. Since then we relocated to Maungati in 2008, 32k inland from Timaru and have steadily increased the herd numbers every year that sees us calving 200 registered females this year.

We are a closed herd with only stud bull purchases / AI as an exception, all bulls fully recorded and registered, BVD tested clear and vaccinated, 7 in 1 vaccinated, TB C10, and fully NAIT compliant. All sale bulls are scanned for carcase traits, 100k SNP tested for greater EBV accuracy, sire verification and screening for genetic defects and semen tested by Excell Breeding on April 25th for fertility.

FMG Premier Bull Sale Insurance

FMG
Advice & Insurance

What is FMG Premier Bull Insurance?

FMG provides automatic insurance for all bulls auctioned at an FMG Premier Bull Sale up to the value of \$50,000 for 14 days at no cost to the purchaser.

For any bull purchased over \$50,000 talk to an FMG representative.

What is the length of cover?

You will automatically be insured for the specified bull for 14 days. You also have the option to extend the length of insurance to 12 months. Simply tick the "Extend your Premier Bull Insurance" option on the Purchaser Slip. The specified bull is then insured for the remaining period of 12 months at **7.6%** of the purchase price (the sum insured for the bull). If you would like to discuss an alternative timeframe, please have a chat with your local FMG representative.

You don't have to pay today, FMG will invoice you for this additional cover.

What are the benefits?

✓ Infertility	Cover if your specified bull has to be euthanised due to permanent infertility caused by certain accidents, disease, injury, or illness.
✓ Theft or death	We cover your specified bull for theft or death caused by certain accidents, disease, injury, or illness (including while in transit anywhere in New Zealand).
✓ Vet costs	We cover up to \$500 for treatment of your specified bull to prevent death.

What will FMG pay?

FMG will pay the fair market value of your specified bull, less any amount you receive for the sale of the carcass, up to the amount shown on the insurance certificate.
