INTRODUCTION - WAIMARA ANGUS

Tom and Sally along with their family would like to extend a warm welcome to their annual Angus Bull sale.

First up this year I'd like to acknowledge a massive milestone for our family. 2023 marks our 35th year as a registered Angus Breeder. Who knew that Tom & Sally's vision would ignite a spark that has enveloped all three of their children and slowly seeping into their grandchildren. We have also just celebrated 12 months at our new property at Eastern Bush. Another huge achievement for us is our first on farm sale that is on our own farm! We have changed things up a bit this year opting for a Helmsman style – online auction developed by the Giddings family called YourBid, we felt this option slows down the auction and enables our clients to take their time and ensure they go away with a bull that really suits their programs and properties. Please also note a later sale date of June 1st.

As we expected the cows have transitioned seamlessly, this being their 4th shift in 35 years. The only tweaks we have made to our program with this last shift is our calving dates as our spring down here is about a month later than East Otago. We currently have approximately 160 registered Angus cows in calf with our second batch of embryo's due to calve in 2023. We are really excited about our embryo program and the accelerated progress it enables us to make.

Our cows have enjoyed their summer doing what cows do best – cruising around behind sheep cleaning up rank 30+ year old pastures. Our sale bulls are looking great and we really encourage you to come and view them before sale day if you are able – we are always available by appointment but will also be having an open day on the 15th May.

Whilst we are mindful of growth and carcass requirements for fattening beef cattle the main priority of our breeding program is maternal function. We believe in producing balanced, fertile, structurally sound, efficient cattle that perform in challenging conditions time and time again. All our cows are farmed under commercial conditions integrated with sheep. All our breeding cows have to get in calf as a rising 2-year-old, calve without difficulty, and get back in calf every year there after.

This year you will see catalogued bulls by our own Waimara bred sires, our first crop of calves by Taimate Laser and also calves by our 7 year old Stern sire. We believe in using proven NZ bloodlines 95% of the time and you will see this throughout the pedigrees catalogued.

Waimara Bulls are fully recorded on Breedplan – we have a 4.5-star recording rating out of 5. Our cattle are C10 TB status, have been muscle scanned by Austins Ultrasound Ltd, and fertility tested by Xcell breeding. We also provide a substantial, 3-year, moneyback, structure and fertility guarantee – if our bulls aren't meeting your expectations we want to hear about it.

We are really looking forward to welcoming both old and new to Eastern Bush for our 12th Annual sale on the 1st of June. One of the biggest reasons we are in the breeding game is because we love to help people get the best out of their cow herd and tailoring their herd to their properties so if this is something you would like help with then please be in touch anytime.

Thank You

Waimara Angus

CONDITIONS OF SALE

- 1) The sale will be conducted as a Helmsman-style auction, meaning that all lots are for sale simultaneously. This is to allow for the participation of those in attendance, as well as those online. The sale will be hosted on the Yourbid platform and accessed through our website www.waimaraangus.co.nz or directly at www.yourbid.co.nz. Prior to the sale, all lots will be filmed and available for viewing up until sale day on the Waimara Angus website.
- 2) **Health and Safety Regulations:** Visitors are reminded of the OSH regulations and are requested to take all care and responsibility for all actions whilst on the property.
- 3) Each lot becomes the property of the purchaser at the conclusion of the sale.
- 4) Although every care has been taken in ensuring the accuracy of this catalogue no responsibility is accepted for any errors that may be included therein.
- 5) **Insurance:** We recommend Purchasers Insure their Bulls on the day of the sale through the Auctioneers.
- 6) **Guarantee:** The entry of any bull in this catalogue constitutes a Guarantee of soundness that affects the bulls ability to breed and their fertility for three years. The purchase price will be refunded (without interest, expenses cost or damages) should the bull prove totally infertile (a vet certificate is required to validate fertility) and provided that the purchaser shall throughout the guarantee period assure that the bull has proper care and attention and is maintained in good condition and health including annual BVD vaccination. The value of the bull shall decrease by 1/3 each year also taking into account possible killing revenue. The incapacity due to injury, neglect or to illness suffered or contracted after the sale is not covered by the guarantee.
- 7) **Disclaimer:** The vendor reserves the right to alter the order and replace or withdraw lots.
- 8) All bulls are tuberculosis tested in accordance with statutory regulations. TB Status 10
- 9) All bulls have been BVD blood tested negative and have been vaccinated twice with Bovillis BVD
- 10) **G.S.T:** All bulls sold are G.S.T exclusive
- 11) All sale bulls have passed a veterinary semen evaluation test prior to sale.
- 12) Free delivery within the South Island
- 13) **PURCHASING REBATE:** All intending purchasers are required to register either online at yourbid.co.nz or on farm at the sales office prior to the sale. Waimara Ltd will pay a purchasing rebate of 6% of the purchase price excluding GST, plus GST, to livestock companies & recognised independent livestock agents. **ARRANGEMENTS MUST BE MADE PRIOR TO THE SALE AND SETTLEMENT MADE ON THE PURCHASER'S BEHALF WITHIN 14 DAYS OF SALE.**

ON-LINE bidding

opens on

Thursday 1st June - 11am

www.yourbid.co.nz

SALE FORMAT

The sale will be conducted as a Helmsman-style auction, meaning that all lots are for sale simultaneously. This is to allow for the participation of those in attendance, as well as those online. The sale will be hosted on the yourbid platform and accessed through the website **www.yourbid.co.nz**.

Prior to the sale, all lots will be filmed and available for viewing on the Yourbid website.

Registration for those in attendance will be at the on-farm office, where a copy of the conditions of sale will be posted.

Registration for those online will be through the Yourbid website, where the conditions of sale will also be available.

Buyers will receive a buyer number as they register which will accompany each bid they place, whether they do so at home on their computer, or through their smart phone, or manually while in attendance.

Those in attendance may also bid by writing on the supplied bidding cards and handing them in to the auctioneers. All live bids and all lots will be visible at all times, both online and on a big screen on-farm.

Online registration is available NOW and we encourage everyone to visit our website www.yourbid.co.nz, to register, and then place practice bids on the demonstration lots on the auction page.

Online bidding will be open from **Thursday 1st June – 11am** until the conclusion of the sale.

Updates on state of sale and likely finish will be made through the comments section of the web-site chat room.

A live screen on the website will show all lots alongside their current prices and the buyer number of the bidder who holds that lot.

Bids will be displayed on a computer or smart phone screen in the following colours: A live screen on the website will show all lots alongside their current prices and the buyer number of the bidder who holds that lot.

On-farm attendees will be able to view on a big screen on site.

Bids will be displayed on screen in the following colours

EXAMPLE:

\$2500 Displayed in Red denotes the Vendor's reserve and indicates there has been no bid

\$3000 Displayed in Blue means an active bid has been received

\$3500 Orange highlight indicates a new Bid has been received within the last 2 minutes on this lot

\$3500 The holder of the leading bid will have the lot number highlighted in green on their computer or their smart phone

The sale will run until **2.00pm, 1st June 2023**. After this time the sale will conclude once there has been a period of at least 2 minutes without a bid being received on any lot. If another bid is placed on any lot during the 2-minute period, then time is extended and bids can be received on all lots for a further 2 minutes.

This process will be repeated until a clear 2 minutes passes without any bids on any lot at which time the sale will conclude. Final Time will be called clearly by the commentary team who will use their discretion to ensure all bidders are satisfied.

All updates will be posted on the website, as will an up-to-date version of this document.

The award-winning yourbid online selling platform was developed by the Giddings Family for their 2020 Angus Female Sale which was held during the first COVID lockdown.

The system was further developed to incorporate on-farm and online bidding, and has been used successfully for 3 years now.

It has been used to run over 50 sales of sheep and cattle sales for studs both in NZ and the UK.

ph 03 312 2191 www.xcell.co.nz

Xcell's semen evaluation and fertility testing is a practical method to eliminate bulls with less than satisfactory breeding potential.

Semen collection and evaluation using electroejaculation is utilised worldwide for obtaining a semen sample, and is part of our procedure to demonstrate normal reproductive ability. Xcell Breeding and Veterinary services uses this safe and reliable method using highly skilled operators with modern equipment to assist the stud breeder in his desire to present quality animals for sale. Each bull featured in this catalogue has undergone Xcell's semen evaluation and fertility test.

The evaluation consists of:

1. Palpation and examination of the testicles, the testis should be firm, equal in size with no palpable abnormality and have scrotal diameter in keeping with industry standards.
2. The penis and sheath are examined for any apparent abnormality e.g. sores, lacerations, abscesses, hair rings, warts, cork screw, penile frenulum, scar tissue, signs of damage. During stimulation the penis must extend from the sheath, straight in the midline of the bull.
3. Microscopic evaluation of a semen sample for Motility (% of live sperm within the sample) and morphology (% of normal vs. abnormal sperm within the sample).

All the above information is considered and, where there is any departure from normal the bull is either failed outright or re-evaluated at a later date.

As the testing is often done some months prior to the bull being joined, it is important to appreciate that subsequent ill health or injury may render the animal either temporarily or permanently infertile.

It is important to observe young bulls working and it is good practice to back up mate with a proven sire after 2 cycles to cover the possibility of any possible subsequent temporary infertility.

Stud/Client Name: Waimara Limited

Date of testing: 28th February 2023

Angus NZ EBV's Explained

TransTasman Angus Cattle Evaluation (TACE) EBVs and selection indexes remove the effects of non-genetic factors (e.g. feeding regimes, animal age) from what is seen and measured to provide the best measure of an animal's genetic merit. TACE information should always be used in conjunction with other selection criteria, including visual assessment.

A BEST PRACTICE GUIDE TO SELECTING YOUR NEXT ANGUS NEW ZEALAND SIRE

A TACE Guide to Animal Selection allows you to select the best genetics for your herd in four easy steps:

1. Identify the **Angus New Zealand selection index** of most relevance to you.
2. **Rank animals** using the chosen selection index.
3. Consider the individual EBVs of importance.
4. Consider other traits of importance (e.g. visual assessment).

The majority of these steps can be undertaken online, allowing you to generate a shortlist of bulls for potential purchase ahead of sale day. The searchable version of this catalogue can be found online here www.angusnz.com.

TRANSTASMAN ANGUS CATTLE EVALUATION

The Angus New Zealand Association publishes the following TACE EBVs and Selection Indexes. Please note that only EBVs from the same TACE analysis can be directly compared.

More information, including EBV descriptions and how to use them, can be found in the **Using & Understanding TACE EBVs** booklet. Scan the QR code for details.

14 DAYS FREE COVER. NO BULL.

We want to ensure you get the very best cover on sale day and the best service every day after that. That's why we offer to insure your bull purchased at any **FMG Premier Bull Sale** for 14 days free* from the fall of the hammer.

Extend your cover. All bulls purchased at auction up to \$50,000 can be insured for 6.5% of the purchase price on a 12-month policy. You can choose to extend your 14 days free cover on the Purchaser Instruction and Insurance Slip. For terms less than 12 months, different rates apply.

So talk to your FMG Rural Manager about FMG Premier Bull Sales Insurance.

* Subject to standard underwriting criteria. Please note this is only a summary of FMG products and services and is subject to our specific product documentation. For full details, refer to the relevant policy wording at fmg.co.nz/livestockpolicy

We're here for the good of the country.

FMG
Advice & Insurance

FMG Premier Bull Sale Insurance

What is FMG Premier Bull Insurance?

FMG provides automatic insurance for all bulls auctioned at an FMG Premier Bull Sale up to the value of \$50,000 for 14 days at no cost to the purchaser. For any bull purchased over \$50,000 talk to an FMG representative.

What is the length of cover?

You will automatically be insured for the specified bull for 14 days. You also have the option to extend the length of insurance to 12 months. Simply tick the “Extend your Premier Bull Insurance” option on the Purchaser Slip. The specified bull is then insured for the remaining period of 12 months at 6.5% of the purchase price. If you would like to discuss an alternative timeframe, please have a chat with your local FMG representative.

You don't have to pay today, FMG will invoice you for this additional cover.

What are the benefits?

✓ Infertility	Cover if your specified bull has to be euthanised due to permanent infertility caused by certain accidents, disease, or illness.
✓ Theft or death	We cover your specified bull for theft or death caused by certain accidents, disease, or illness (including while in transit anywhere in New Zealand).
✓ Vet costs	We cover up to \$500 for treatment of your specified bull to prevent death.

What will FMG pay?

FMG will pay the fair market value of your specified bull, less any amount you receive for the sale of the carcass, up to the amount shown on the insurance certificate.

FMG Purchaser Instruction and Insurance Slip

This slip **MUST** be fully completed and handed to the Booking Clerk before leaving the sale.

^ Required to correctly identify you once cover is issued.
