

WAIMĀRA ANGUS

14th ANNUAL

BULL SALE

10.30am THURSDAY
5th JUNE 2025

483 SUTHERLAND ROAD, LUMSDEN

NEW
DATE, &
LOCATION

www.waimaraangus.co.nz

‘Next Generation Waimara Angus’

WAIMĀRA ANGUS

BRED TO PERFORM

- BVD tested negative and vaccinated
- TB Status C10
- Everything calved as a 2yr old
- Our herd is free of all known genetic defects
- Balance - we do not believe in single trait selection
- Fertility tested by Xcell Breeding Services
- Muscle scanned by Bailey Scanning
- 4.5 star Breedplan Recorded
- Extensive money back 3yr fertility and structure guarantee – no credits
- Independently Inspected by Rob Hall

INTRODUCTION - WAIMARA ANGUS

The Waimara Angus family would like to extend a warm welcome to their annual Angus Bull sale.

This year marks our 14th annual sale and our third year back in the South, this year for us has definitely been a game of two halves! With one of the wettest Springs on record, huge lamb losses and not great forecast prices for lamb in late 2024 the cows were definitely the shining light in our operation, and many discussions were had about changing our 80/20 sheep to beef policy! Fast forward 6 months and the year is unrecognizable, positivity is high, lamb and beef prices are extraordinary, and we are back ready to tackle another winter.

We have made some big but exciting changes this year. Our inaugural 'Round the Mountain - Southern Sales' kicks off, a collaboration between several Southern Studs to enable bull buyers to attend 4 sales over 3 days and view over 160 bulls. For us to be able to take part in this we have moved our sale to North Range in Lumsden to enable drive times between sales. We appreciate all our 'partners in beef' for following us on our moves over the last few years and this latest move should significantly cut down travel times for a lot of you. A huge thanks to the North Range Partnership for allowing us to bring the sale there. This is just one more step in our Beef Partnership with North Range as we now have a satellite herd there aswell. It also means that after being a very valued client over the past 12 years, North Range will no longer be buying bulls at our sale as they can now breed their own. After successfully using strong New Zealand bloodlines for the last decade in our main herd this growth allows us to trial some balanced, overseas genetics at the North Range satellite herd that we think might blend well with our herd. It's also allowed us to ramp up our Embryo Transfer program enabling us to select our best, proven cows and replicate them.

Beef prices are still going strong and it's so good to see great prices at both the works and the sale yards, we love getting feedback from you all and have been hearing some outstanding weaning weights and pregnancy results. Something we really want our clients to be aware of is that we are here to help so if you are looking for any further information or a hand with your own herds please don't hesitate to call. Also to highlight our 3-year structure and fertility guarantee - this is money back into your account as we do not give out credits to be used at the next sale, see page 3 for more details. We are really pleased with the Helmsman style auction run by YourBid - we felt it did all the things we hoped by enabling our clients to take their time and ensure they go away with a bull that really suits their programs and properties.

Whilst we are still hitting all of our growth and carcass requirements for fattening beef cattle at the feedlot and elsewhere, the main priority of our breeding program is maternal function. We believe in producing balanced, fertile, structurally sound, efficient cattle that perform in challenging conditions. All our cows are farmed under commercial conditions integrated with sheep. All our breeding cows must get in calf as a rising 2-year-old, calve without difficulty, and get back in calf every year thereafter.

Our cows have enjoyed their summer doing what cows do best - cleaning up after the sheep and laying down surplus so that they are ready to endure our long, cold winter. Our sale bulls are looking great and this year marks our first line of sale bulls

that were mated and born in Southland and so are a month younger than previous years with a calving date of 15th September, this year you will see catalogued bulls by our own Waimara bred sires, our first crop of bulls by Taimate Roy, another line up by Bigmac Kayjay, the last of our AI to Kaiwara George and a sneak peak of some Aussie's coming through in Banquet Quarter Pounder.

We really encourage you to come and view the bulls before sale day if you are able – we are always available by appointment but will also be having an Open Day on the 22nd of May. Don't forget if you can't make sale day you can bid online or get an agent to bid on your behalf. As usual we are looking forward to catching up with you all at our sale on 5th June.

Thank You
Waimara Angus

CONDITIONS OF SALE

- 1) The sale will be conducted as a Helmsman-style auction, meaning that all lots are for sale simultaneously. This is to allow for the participation of those in attendance, as well as those online. The sale will be hosted on the Yourbid platform and accessed through our website www.waimaraangus.co.nz or directly at www.yourbid.co.nz. Prior to the sale, all lots will be filmed and available for viewing up until sale day on the Waimara Angus website.
- 2) **Health and Safety Regulations:** Visitors are reminded of the OSH regulations and are requested to take all care and responsibility for all actions whilst on the property.
- 3) Each lot becomes the property of the purchaser at the conclusion of the sale.
- 4) Although every care has been taken in ensuring the accuracy of this catalogue no responsibility is accepted for any errors that may be included therein.
- 5) **Insurance:** We recommend Purchasers Insure their Bulls on the day of the sale through the Auctioneers.
- 6) **Guarantee:** The entry of any bull in this catalogue constitutes a Guarantee of soundness that affects the bulls ability to breed and their fertility for three years. The purchase price will be refunded (without interest, expenses cost or damages) should the bull prove totally infertile (a vet certificate is required to validate fertility) and provided that the purchaser shall throughout the guarantee period assure that the bull has proper care and attention and is maintained in good condition and health including annual BVD vaccination. The value of the bull shall decrease by 1/3 each year also taking into account possible killing revenue. The incapacity due to injury, neglect or to illness suffered or contracted after the sale is not covered by the guarantee.
- 7) **Disclaimer:** The vendor reserves the right to alter the order and replace or withdraw lots.
- 8) All bulls are tuberculosis tested in accordance with statutory regulations. TB Status 10

- 9) All bulls have been BVD blood tested negative and have been vaccinated twice with Bovilis BVD
- 10) **G.S.T:** All bulls sold are G.S.T exclusive
- 11) All sale bulls have passed a veterinary semen evaluation test prior to sale.
- 12) Free delivery within the South Island
- 13) **PURCHASING REBATE:** All intending purchasers are required to register either online at yourbid.co.nz or on farm at the sales office prior to the sale. Waimara Ltd will pay a purchasing rebate of 6% of the purchase price excluding GST, plus GST, to livestock companies & recognised independent livestock agents. **ARRANGEMENTS MUST BE MADE PRIOR TO THE SALE AND SETTLEMENT MADE ON THE PURCHASER'S BEHALF WITHIN 14 DAYS OF SALE.**
- 14) Waimara reserves the right to collect 100 straws of semen from any bull in this catalogue for in herd use only

ON-LINE BIDDING

opens on

Thursday 05th June-8.30am

www.yourbid.co.nz

SALE FORMAT

The sale will be conducted as a Helmsman-style auction, meaning that all lots are for sale simultaneously. This is to allow for the participation of those in attendance, as well as those online. The sale will be hosted on the yourbid platform and accessed through the website www.yourbid.co.nz.

Prior to the sale, all lots will be filmed and available for viewing on the **Yourbid website**.

Registration for those in attendance will be at the on-farm office, where a copy of the conditions of sale will be posted.

Registration for those online will be through the Yourbid web-site, where the conditions of sale will also be available.

Buyers will receive a buyer number as they register which will accompany each bid they place, whether they do so at home on their computer, or through their smart phone, or manually while in attendance.

Those in attendance may also bid by writing on the supplied bidding cards and handing them in to the auctioneers. All live bids and all lots will be visible at all times, both online and on a big screen on-farm.

Online registration is available NOW and we encourage ev-eryone to visit our website www.yourbid.co.nz, to register, and then place practice bids on the demonstration lots on the auction page.

Online bidding will be open from Thursday **05 th June – 8.30am** until the conclusion of the sale.

Updates on state of sale and likely finish will be made through the comments section of the web-site chat room.

A live screen on the website will show all lots alongside their current prices and the buyer number of the bidder who holds that lot.

Bids will be displayed on a computer or smart phone screen in the following colours: A live screen on the website will show all lots alongside their current prices and the buyer number of the bidder who holds that lot.

On-farm attendees will be able to view on a big screen on site.

Bids will be displayed on screen in the following colours

EXAMPLE:

\$2500 Displayed in Red denotes the Vendor's reserve and indi-cates there has been no bid

\$3000 Displayed in Blue means an active bid has been received \$3500 Orange highlight indicates a new Bid has been received within the last 2 minutes on this lot

\$3500 The holder of the leading bid will have the lot number highlighted in green on their computer or their smart phone

The sale will run until **12.00pm, 05th june 2025**. After this time the sale will conclude once there has been a period of at least 2 minutes without a bid being received on any lot. If another bid is placed on any lot during the 2-minute period, then time is extended and bids can be received on all lots for a further 2 minutes.

This process will be repeated until a clear 2 minutes passes without any bids on any lot at which time the sale will conclude. Final Time will be called clearly by the commentary team who will use their discretion to ensure all bidders are satisfied. All updates will be posted on the website, as will an up-to-date version of this document.

The award-winning yourbid online selling platform was developed by the Giddings Family for their 2020 Angus Female Sale which was held during the first COVID lockdown.

The system was further developed to incorporate on-farm and online bidding, and has been used successfully for 3 years now.

It has been used to run over 50 sales of sheep and cattle sales for studs both in NZ and the UK.

XCELL
BREEDING SERVICES

SEMEN EVALUATION AND FERTILITY TESTING

Xcell Breeding Services semen evaluation and fertility testing is a practical method used worldwide to eliminate bulls with less than satisfactory breeding potential and is part of our procedure to demonstrate normal reproductive ability. Xcell Breeding Services uses this safe and reliable method to assist the breeder in their desire to produce quality animals.

The evaluation consists of:

- Palpation and examination of the testicles, the testis should be firm, equal in size with no palpable abnormality and have scrotal diameter in keeping with industry standards.
- The penis and sheath are examined for any apparent abnormality e.g. sores, lacerations, abscesses, hair rings, warts, cork screw, penile frenulum, scar tissue, signs of damage. During electro stimulation the penis must extend from the sheath, straight in the midline of the bull.
- Microscopic evaluation of a semen sample for Motility (% of live sperm within the sample) and morphology (% of normal vs. abnormal sperm within the sample).

All the above information is considered and, where there is any departure from normal the bull is either failed outright or re-evaluated at a later date.

Each bull presented by **Waimara Ltd**
has undergone Xcell Breeding Services semen evaluation and fertility testing
on **05/03/2025**

Greg McKay
General Manager

Disclaimer: As the testing is often done some months prior to the bull being joined, it is important to appreciate that subsequent ill health or injury may render the animal either temporarily or permanently infertile.

It is important to observe young bulls working and it is good practice to back up mate with a proven sire after 2 cycles to cover the possibility of any possible subsequent temporary infertility.

+3.3	+1.2	+1.4	+0.3	+1.0	

For more information please go to www.angusnz.co.nz or on sale day find Chris or Kate Pont and we will look up any additional information you might require.

AngusNZ EBVs Explained

EBVs and Selection Indexes remove the effects of non-genetic factors (e.g. feeding regimes, animal age) to provide the best measure of an animals genetic merit.

To ensure the accuracy of EBV and Index data, AngusNZ combine with Angus Australia to create a reference population known as the TransTasman Angus Cattle Evaluation (TACE).

By using TACE – along with visual and structural appraisal – will assist in creating a balanced phenotypical and genotypical breeding outcome.

FOUR STEPS TO SELECTING YOUR NEXT ANGUSNZ SIRE:

1. Consider your individual EBVs of importance
2. Consider other traits of importance (e.g. visual assessment)
3. Identify the **AngusNZ selection** index of most relevance to your breeding programme
4. **Rank animals** using the chosen Selection Index.

AngusNZ publishes the following TACE EBVs and Selection Indexes. Please note that only EBVs from the same TACE analysis can be directly compared.

Growth EBVs	Fertility & Birth EBVs	Carcase EBVs
Birth Weight	Scrotal Size	Carcase Weight
200 Day Growth	Days to Calving	Eye Muscle Area
400 Day Weight	Gestation Length	Rib Fat
600 Day Weight	Calving Ease Direct	Rump Fat
Milk (Maternal)	Calving Ease Daughters	Retail Beef Yield
Mature Cow Weight		Intramuscular Fat

Other EBVs	Selection Indexes
Docility	Self Replacing
Structural Assessment	AngusPure
	Heifer Dairy Terminal
	<i>Details about the Angus Selection indexes can be found at:</i> breedplan.une.edu.au/media/bqjbnnbh/using-new-zealand-angus-selection-indexes.pdf

For more information, including EBV descriptions and how to use them go to: **breedplan.une.edu.au/media/dtqpdm34/using-and-understanding-breedplan-ebvs.pdf**

Beef + Lamb Genetics have developed a new tool to make it easier to find the best bulls for your farming operation. Using a series of buttons and sliders, you can refine down your breeding criteria. On a click of a button, nProve then generates a list of bulls that best fit that criteria. It's free to use, there's no need to register and there's also helpful tips to get started. Try it out at **www.nprove.nz**

INVEST IN YOUR HERD'S FUTURE

Unlock the Power of Genomics with AngusGS

Get the genetic insights you need to make smarter breeding decisions, reduce risk, and maximise herd potential.

AngusGS is the ultimate Angus-specific genomic profiler, delivering unmatched insights into key traits such as calving ease, birth weight, marbling, female fertility, and more.

Look for the AngusGS logo on sale lots—it shows that the animal has undergone SNP testing (via Neogen & PBB) and has been included in a Genomic Evaluation, with “Genomics” listed under Traits Analysed.

WHY ANGUSGS?

- Make smarter selection decisions — gain genetic insights earlier in an animal's life.
- Market with confidence — provide buyers with verified genomic data.
- Strengthen herd linkages — enhance connections within the Angus reference population.
- High-density SNP profiling — over 75,000 SNPs for deeper genetic analysis.
- Trusted parent verification — conducted in-house by the PBB DNA team.

**Power your breeding program with AngusGS
— because better data leads to better cattle.**

**FOR COMPLETE END-TO-END SERVICE AND SUPPORT,

Notes

Notes

THE REMARKABULLS.

In 2024 we sought your prize-worthy bulls to hero them front and centre – they really fill the frame.

These beautiful bulls are worth their weight and more, requiring strong cover on sale day, and solid service every day after that.

That's why we offer existing FMG clients (with an active policy), **14 days free cover** for bulls purchased at any FMG Premier Bull Sale up to the value of \$50,000 per bull, on completion of an Insurance Form.*

Cover can be extended beyond the initial 14 days free cover for the remaining period of 12 months at 7.6% of the purchase price (rates differ for shorter policy periods).

To find out more, talk to your FMG rep, visit fmg.co.nz/contact-us or call us on 0800 366 466.

*Offer subject to Livestock Policy terms and exclusions, and underwriting criteria.

We're here for the good of the country.

Top to bottom: CHAROLAIS - Trudy and AJ McIntyre; ANGUS - Sherson Family (Brian and Sharon Sherson, their son Rob and his wife Tracy); HEREFORD - Jason Hill; SOUTH DEVON - Richard and Denise Van Asch.

FMG Premier Bull Sale Insurance Form

What is FMG Premier Bull Insurance?

On receiving a completed FMG Premier Bull Sale Insurance form, FMG provides its existing FMG clients with an active policy 14 days free insurance for bulls purchased up to \$50,000. For bulls purchased over \$50,000, please contact an FMG representative.

What is the length of cover?

Your specified bull(s) will be insured for 14 days once you have fully completed this form and it's received by an FMG representative. If you would like a longer period of cover, simply tick the Cover extension box below to extend your Premier Bull Insurance to 12 months. The specified bull(s) is then insured for the next 12 months at **7.6%** of the purchase price.

FMG will invoice you for this additional cover.

What are the benefits?

✓ <i>Infertility</i>	Cover if your specified bull has to be euthanised due to permanent infertility caused by certain accidents, disease, injury, or illness.
✓ <i>Theft or death</i>	Cover for your specified bull for theft or death caused by certain accidents, disease, injury, or illness (including while in transit anywhere in New Zealand).
✓ <i>Vet costs</i>	Cover up to \$500 for treatment of your specified bull to prevent death.

What will FMG pay?

FMG will pay the fair market value of your specified bull, less any amount you receive for the sale of the carcass, up to the amount shown on the insurance certificate.
